

The Lasalle Avenue Project

Volume 68 09.11.15

Lasalle Avenue from 8th Street to Grant Street

FOR THE WEEK OF SEPTEMBER 14-SEPTEMBER 18

From 8th Street to 12th Street, City crews will continue working on fixtures for street lighting and traffic signals.

- Xcel Energy will be working on the repair of vault roofs in the sidewalk area on the east side of Lasalle Avenue between 10th and 11th Streets.
- Comcast is repairing conduits on the East side of the 12th Street intersection.
- The city will be installing structural soil in the boulevard areas for future tree planting.
- The city will begin installing new sidewalks on the East side of Lasalle from 11th Street to 12th Street.

We will continue to maintain two-way traffic on Lasalle Avenue.

The final layer of asphalt will be placed after the installation of the new sidewalk, placement of the underground traffic infrastructure, and all of the utility manholes are adjusted to their final elevations. This asphalt paving work will also be coordinated with other construction projects that are ongoing in downtown Minneapolis.

We do appreciate your patience and understanding as we proceed with this project. Our goal is to keep you informed of our plans and schedule as we proceed and to fully construct the new Lasalle Avenue as quickly as possible.
